**“Discover the treasure hidden within you and change your life
with MagicWorld”**

Hello and welcome to MagicWorld!

First of all, the Contents developed in this Program are verified Contents, experienced in a living way, which help those who are thirsty for Spiritual Awakening, inner freedom and to discover their true Spirit, which dwells in their deepest of themselves, which is the very Quintessence of the Universe, which some call the Christic Spirit, God, Nirvana or Illumination. Whatever name we give to our Spirit, this Divine Spark is our true, essential and deepest, most powerful nature in the human dimension.

This Program as much as possible to offer the true Researcher, to learn more and more to know himself, through the most solid and above all 100% practical bases, in order to enter more and more in depth into himself. even, to succeed through Simple Self-Knowledge, to transcend one's own personal limitations and to experience small and large moments of Spiritual Awakening.

When the time is right, the Seeker will discover his true Spirit.

The purpose of a Quest like this, is to take the authentic Seeker on a Journey within himself, into his own soul and to go on an Adventure in the deepest regions of which he actually is.

First of all, he will discover there, on the surface, a reality much less flattering than he thought of the image he had of himself, only to realize the extent to which he is continually manipulated by his own personality.

The word "personality" comes from the Latin word, of which "persona" means "mask". The Researcher is therefore manipulated by different masks, which take him sometimes to the left, sometimes to the right, depending on the external events that happen to him, his educational conditioning, his moods and over which he has almost no control. This, following his basic ignorance, of all this functioning, of all this machine, which he unfortunately never learned at school to know, to discover, to have the right, clear Knowledge of his own nature. and advance with authenticity towards greater depth, beyond all these masks, for whom he will learn in this Program, to no longer take himself and discover all the condensed Energy that is between these masks, between his different "I's", its different "I", through the acquisition of a certain form of immobility of the spirit and to live more detached, in more space, more freedom and to become little by little, more and more, the master on board in his own soul, of his different masks, of his inner life and of his new possible destiny.

The Researcher will then use his own masks for their strict purposes, no longer being their slave, but the master.

All this is possible by the Knowledge of these phenomena and the internal awakening, of the glance which we carry and turn inside ourselves, in its own heart.

Spiritual Evolution is a Quest that will become more and more subtle with time, research and mastery.

Just like the scientist who observes more and more closely the interior of the human body, the more he observes, the more he discovers the space which is between the billions of cells of the body.

The more we observe with our consciousness inside ourselves, the more we notice that there is a difference between the observer who is conscious, who we are and what is observed then, as physical sensations in our body, our mechanical attitudes, our fleeting emotions and our superficial thoughts.

It is by creating in oneself a space between the conscious observer, either what we are and what is observed, or the body, the emotions and the thoughts, that a space is then created, in which a suprasensible phenomenon, energetic or spiritual can occur, the possible circulation of a new Energy can be introduced which is the Energy of Universal life, which can then begin to circulate in us, through us and regenerate us.

The more space we create between what we are, which is the observer who brings awareness and the objects observed in oneself, masks of the personality, the more this Energy will circulate in abundance.

So let us learn to observe, to study ourselves, to know ourselves. And let's stop taking ourselves for what we observe inside ourselves, which are different masks, which in turn continuously follow one another, with their own physical sensations and mechanical attitudes, their own emotions and integrated thoughts. Masks that act and manipulate us, like invisible entities, for their own petty and selfish interests.

We are not those masks. We must recognize them in ourselves, study ourselves with detachment. We are this observer, this authentic Seeker, this pure and free conscience which begins to create distance between oneself, that is to say what it observes and what is observed, to let circulate between the observer and the observed, this Energy of universal life.

This Quest is intended for the most serious Seekers. There are few in humanity who are ready and who have the panache to confront themselves, their own nature, to turn their gaze inward. This to

discover through an incredible Adventure of self-transcendence, all the keys, which this Program offers that open the doors of Spiritual Awakening. Initiatory doors, of Mystical Knowledge, 100% practical, to succeed in freeing oneself from all the limitations that our personality inflicts on us, through its different masks.

Based on the Authentic experience of the oldest, but also of the greatest Sages and great Guides of humanity, those of today and the past, this Program is only based on living, real and experienced Experiences, to all those who wish to undertake this Quest towards the most important and most beautiful of human lands and Adventures, including certainly the most incredible in the history of humanity, and this not only of the world, but of the universe whole !

A real Treasure to discover deep within oneself, of which the Quest itself offers the most beautiful of jewels, that of a real meaning to existence, a deep meaning, intimate with oneself and the Universe, that of continual surpassing of oneself, towards more Freedom, more Happiness, more inner Peace, more true Joy of being, Love, plenitude and bliss.

Welcome aboard this MagicWorld Program and this immense Adventure and challenge of Life, by far the deepest, most intense, most beautiful and most incredible of human Adventures and in truth Universal, that a human being can undertake. in his existence, for his own personal destiny, his own future and thereby that of others, of the world and of humanity as a whole.

MagicWorld, means the Magic World. The Magical World is the name given to describe the Universe whose Energy of Joy contained in it, is equivalent to the explosion of several thousand supernovae, and which yet, in the greatest mystery and the greatest of secrets , and also the most difficult of the discoveries to be made, Lives in each of oneself.

MagicWorld, this Magical World inside oneself, is both the goal to be reached deep within oneself, but also brings a new meaning to existence in its Quest, its Adventure itself, towards this one.

MagicWorld is also the creation of a Foundation, of a new world in its entirety, more and more Magical.

Leaps and bounds, where we are now!

Practical aspect :

I become, my consciousness becomes, a silent observer, like a camera, who does not judge, who does not analyze, who observes his inner world as it is, his physical sensations as they are, his emotions as they are. 'they manifest, and his thoughts as they come.

My consciousness simply observes, silently, its own inner world to get to know it, to study it, like a scientist.

The more we learn to know ourselves, either to recognize in which masks we find ourselves, masks with their own physical sensations, emotions and assorted thoughts, the more easily we will be able to disidentify ourselves, or to no longer take ourselves for these masks, to be victims of the game of these masks in themselves and become more and more, little by little, the one who directs them, who becomes their master. By remaining more of a silent consciousness, observing the influence of its own masks, than taking oneself for them.

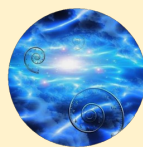

We will deepen tomorrow, the nature of the ego, the importance of such a Quest for Inner Self-Knowledge! And how to live in his peaceful soul.

"Know yourself, yourself and you will know the Universe and the Gods..."
